

Anti- β -Catenin (Phospho-Thr41/Ser45) Polyclonal

Antibody

Catalog No.	Size
A100158-01	50 μ l
A100158-02	100 μ l

Specificity	Anti- β -Catenin (Phospho-Thr41/Ser45) (human mouse rat)
Source	Rabbit Polyclonal
Application	WB ELISA
Form	Liquid, 1 mg/ml

Product

Swiss-Prot No.: P35222

Specificity and Sensitivity

β -Catenin (Phospho-Thr41/Ser45) Antibody detects endogenous levels of β -Catenin only when phosphorylated at Threonine 41/Serine 45.

Source and Purification

The antiserum was produced against synthesized phosphopeptide derived from human β -Catenin around the phosphorylation site of Threonine 41/Serine 45 (A-T-TP-T-A-P-SP-L-S).

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000 ELISA: 1:20000

Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg^{2+} and Ca^{2+}), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Storage Instructions

Stable for 1 year at $-20^{\circ}C$ from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at $4^{\circ}C$ for 3 months.
