

# Anti-ALK (Phospho-Tyr1096) Antibody

Catalog No.	Size
A100230-01	50 µl
A100230-02	100 µl

Specificity	Anti- ALK (Phospho-Tyr1096) (human mouse)
Source	Rabbit Polyclonal
Application	IHC ELISA
Form	Liquid, 1 mg/ml

## Product

**Swiss-Prot No.:** Q9UM73

**Other Names:** ALK tyrosine kinase receptor; anaplastic lymphoma kinase; anaplastic lymphoma kinase (Ki-1); CD246; EC 2.7.10.1; kinase ALK

## Specificity and Sensitivity

ALK (Phospho-Tyr1096) antibody detects endogenous levels of ALK only when phosphorylated at tyrosine 1096.

## Source and Purification

The antiserum was produced against synthesized phosphopeptide derived from human ALK around the phosphorylation site of tyrosine 1096 (P-N-YP-C-F). The antibody was affinity-purified by affinity-chromatography using epitope-specific immunogen.

## Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

IHC 1:50~1:100 ELISA 1:20000

## Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

## Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.

## Images

P-peptide - +

Immunohistochemistry analysis of paraffin-embedded human brain tissue, using ALK (Phospho-Tyr1096) antibody.

ALK (Phospho-Tyr1096) antibody reacts with epitope-specific phosphopeptide and corresponding non-phosphopeptide. The absorbance readings at 450 nM are shown in the ELISA figure.
