

Anti- HS1 (Phospho-Tyr397) Polyclonal Antibody

<u>Catalog No.</u>	<u>Size</u>
A100382-01	50 µl
A100382-02	100 µl

Specificity	Anti- HS1 (Phospho-Tyr397) (human)
Source	Rabbit Polyclonal
Application	WB ELISA
Form	Liquid, 1 mg/ml

Product

Swiss-Prot No.: P14317

Other Names: HCLS1; Hematopoietic cell- specific LYN substrate 1; Hematopoietic lineage cell specific protein; LCKBP1

Specificity and Sensitivity

HS1 (Phospho-Tyr397) antibody detects endogenous levels of HS1 only when phosphorylated at tyrosine 397.

Source and Purification

The antiserum was produced against synthesized phosphopeptide derived from human HS1 around the phosphorylation site of tyrosine 397 (G-D-Y^PE-E).

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000 ELISA: 1:1000

Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg²⁺ and Ca²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.
