

# Anti- AKT1 (Phospho-Thr308) Polyclonal Antibody

<u>Catalog No.</u>	<u>Size</u>
A100389-01	50 µl
A100389-02	100 µl

<b>Specificity</b>	Anti- AKT1 (Phospho-Thr308) (human mouse rat)
<b>Source</b>	Rabbit Polyclonal
<b>Application</b>	WB ELISA
<b>Form</b>	Liquid, 1 mg/ml

## Product

**Swiss-Prot No.:** P31749

**Other Names:** AKT; AKT1 kinase; C-AKT; kinase Akt1; PKB; PKB-alpha; Protein kinase B; RAC; RAC-alpha serine/threonine kinase; RAC-PK-alpha

## Specificity and Sensitivity

AKT1 (Phospho-Thr308) antibody detects endogenous levels of AKT1 only when phosphorylated at threon 308.

## Source and Purification

The antiserum was produced against synthesized phosphopeptide derived from human AKT1 around the phosphorylation site of threonine 308 (M-K-T<sup>P</sup>-F-C).

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

## Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000    ELISA: 1:40000

## Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

## Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.
