

# Anti- Phospho-GR(Ser203) Polyclonal Antibody

<u>Catalog No.</u>	<u>Size</u>
A100469-01	50 µl
A100469-02	100 µl

<b>Specificity</b>	Anti- Phospho-GR(Ser203) (human mouse )
<b>Source</b>	Rabbit Polyclonal
<b>Application</b>	WB
<b>Form</b>	Liquid, 1 mg/ml

## Product

**Swiss-Prot No.:** P04150

**Other Names:** GCR; glucocorticoid receptor; GRL; GRL1; NR3C1

## Specificity and Sensitivity

Phospho-GR(Ser203) Antibody detects endogenous levels of GR only when phosphorylated at Sersine 203.

## Source and Purification

A synthesized peptide derived from human GR around the phosphorylation site of Sersine 203.

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

## Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000

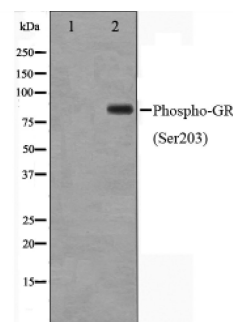

## Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

## Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.

## Images

Western blot analysis on HeLa cell lysate using Phospho-GR(Ser203) antibody, The lane on the left is treated with the antigen-specific peptide.
