

Anti- Phospho-Survivin (Thr117) Polyclonal Antibody

<u>Catalog No.</u>	<u>Size</u>
A100523-01	50 µl
A100523-02	100 µl

Specificity	Anti- Phospho-Survivin (Thr117) (human mouse rat)
Source	Rabbit Polyclonal
Application	WB IHC IF/ICC
Form	Liquid, 1 mg/ml

Product

Swiss-Prot No.: O15392

Other Names: API4, Apoptosis inhibitor 4, Apoptosis inhibitor survivin, BIRC5, Baculoviral IAP repeat-containing protein 5, IAP4, TIAP

Specificity and Sensitivity

Phospho-Survivin (Thr117) Antibody detects endogenous levels of Survivin only when phosphorylated at Threonine 117.

Source and Purification

A synthesized peptide derived from human Survivin around the phosphorylation site of Threonine 117.

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000 IHC: 1:50~1:200 IF/ICC: 1:100-1:500

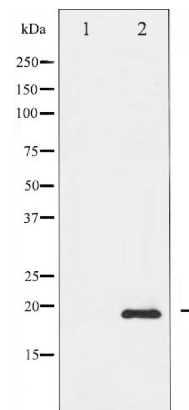

Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg²⁺ and Ca²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.

Images

Western blot analysis of Survivin phosphorylation expression in A549 whole cell lysates, The lane on the left is treated with the antigen-specific peptide.
