

Anti-CD226/DNAM-1 (Ab-329) Polyclonal Antibody

<u>Catalog No.</u>	<u>Size</u>
A200087-01	50 µl
A200087-02	100 µl

Specificity	Anti-CD226/DNAM-1 (Ab-329) (human mouse)
Source	Rabbit Polyclonal
Application	WB ELISA IF
Form	Liquid, 1 mg/ml

Product

Swiss-Prot No.: Q15762

Other Names: CD226, DNAM1, DNAX accessory molecule-1, PTA1, TLIISA1, adhesion glycoprotein, platelet and T cell activation antigen 1

Specificity and Sensitivity

CD226/DNAM-1 (Ab-329) antibody detects endogenous levels of total CD226/DNAM-1 protein.

Source and Purification

The antiserum was produced against synthesized non-phosphopeptide derived from human CD226/DNAM-1 around the phosphorylation site of serine 329 (T-F-S^P-R-R). The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000 IF: 1:100~1:500 ELISA: 1:1000

Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg²⁺ and Ca²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.
