

# Anti-AurB/C (Ab-202/175) Polyclonal Antibody

<u>Catalog No.</u>	<u>Size</u>
A200115-01	50 µl
A200115-02	100 µl

<b>Specificity</b>	Anti-AurB/C (Ab-202/175) (human mouse rat)
<b>Source</b>	Rabbit Polyclonal
<b>Application</b>	WB ELISA
<b>Form</b>	Liquid, 1 mg/ml

## Product

**Swiss-Prot No.:** Q9UQB9

**Other Names:** AIE1, AIE2, AURKC, Aurora-C, Aurora/Ipl1-related kinase 3, Aurora/Ipl1/Eg2 protein 1, Aurora/Ipl1/Eg2 protein 2, EC 2.7.11.1, STK13, STKD, Serine/threonine protein kinase 13, kinase AIK3

## Specificity and Sensitivity

AurB/C (Ab-202/175) antibody detects endogenous levels of total AurB/C protein.

## Source and Purification

The antiserum was produced against synthesized non-phosphopeptide derived from human AurB/C around the phosphorylation site of threonine 202/175 (C-G-T<sup>P</sup>-L-D).

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

## Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000      ELISA: 1:5000

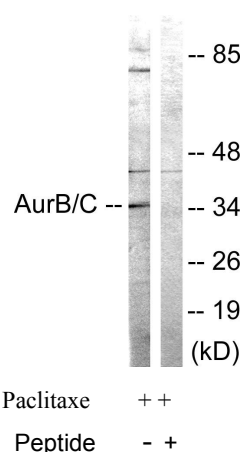

## Storage Buffer

Rabbit IgG in phosphate buffered saline (without Mg<sup>2+</sup> and Ca<sup>2+</sup>), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

## Storage Instructions

Stable for 1 year at -20°C from date of shipment. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap. Aliquot to avoid repeated freezing and thawing. Aliquot will be stable at 4°C for 3 months.

## Images

Western blot analysis of extracts from 293 cells, treated with Paclitaxel (1uM, 24hours), using AurB/C (Ab-202/175) antibody.
