Specificity and Sensitivity

Neuro D (Ab-274) antibody detects endogenous levels of total Neuro D protein.

Source and Purification

The antiserum was produced against synthesized non-phosphopeptide derived from human Neuro D around the phosphorylation site of serine 272 (P-L-S^P-P-P-).

The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.

Application Notes

Optimal working dilutions should be determined experimentally by the investigator. Suggested starting dilutions are as follows:

WB: 1:500~1:3000 ELISA: 1:1000
